

## **Annual Report 2018 – 2019**

### **Secondary Section**

#### **A brief review of the academic session 2018- 19.**

It has been yet another year of concerted efforts towards realising our vision of an inclusive Aurangabad through our work in rural transformation, health, education, sports for development, disaster response, arts, culture and heritage, and urban renewal. Continuing our commitment to work on the frontlines of social and economic challenges, DGA has so far been able to reach out to over so many people across Aurangabad.

Activities at DGA are the part of curriculum and such that they balance both physical and mental development.

#### **Investiture Ceremony**

Leaders become great but not because of their power but because of their ability to empower others. And to prepare the students as a leader in future, council members were elected by the students through mock elections, where students from class 5<sup>th</sup> to 9<sup>th</sup> were divided in different blocks who intelligently voted and selected their best leaders. Investiture ceremony was held in month of July and Students' Council Members were elected for the academic year of 2018-19.

#### **Club Activities**

Ability is what you are capable of doing, motivation determines what you do and attitude determines how well you do it. The aim of forming clubs in school is to inculcate among us love for language, to develop scientific way of learning, to enrich our skills for high order thinking and thereby making us responsible, productive and useful members of the society.

Different clubs in the school has provided platforms to the students developing different skills.

1. Library week was celebrated in the month of November where we got a chance to meet Mrs. Leela Tai Shinde a writer. We got chance to attend book fair and come across new authors.
2. To enhance our conversational and writing skills many language club activities were organised such as extempore, quiz, drama, debate etc.
3. We were given free hand art and craft topics such as making eco- friendly ganpati idol, nature sketch and memory drawing. It inspired us to bring together all our colours of imagination.
4. Who don't wish to become a scientist or a mathematician? To spark the same talent within us we were taught to present through science and maths exhibition.
5. To boost our kinaesthetic skills we were given chance to perform and give our best through solo dance, skits and play.

6. We as the citizens of this country should be aware of our duties and responsibilities, for the same in school we got chance to participate in Swachh Bharat Pakhwada held by PM Modi, in which we had number of eco club activities such as street play on 'Stop using plastic bags', paper bag making, Skit on save environment, Slogan writing competition etc.
7. We believe in caring and sharing, this was expended by being part of fun fair organised on children's day. It was not only enjoyable for us but also we had lots of fun all together.
8. Hindi as a national language is equal important for us. To make us realise of proper use of words in hindi, we in school celebrated hindi week in which we performed solo act, advertisements, hasya kavita sammelan, debate by different classes.
9. Not only English, Hindi or Marathi but we even celebrated Sanskrit day for remembering our great tradition.

### **Life Skill Club**

We don't believe in hard skills but also in life skills for our overall development. In school we get chance to develop all these skills by attending different events such as women empowerment program 'Dar k age jeet hai', Road safety patrolling i.e., Rsp guidance, DGCF Scout and guide unit parades, Tree plantation, nature walk, sports week, kite flying activity and star gazing activity it gave students a chance to learn many things more clearly and efficiently, they even enjoyed a night stay at school accompanied with 8 teachers.

### **Visits**

Well we don't just believe in classroom learning but also an outside learning through an enjoyable exertion i.e. a well organised trip for students from class 5<sup>th</sup> to 8<sup>th</sup> visited to Kerala which was really a memorable one. Around 40 students accompanied with 4 teachers. Few places that visited were really mesmerising and eye catching like hillstation Munnar, Periyar Lake, tea factory, spice garden, eco- point.

Along with enjoyment, this trip gave us a chance to build good bond with our teachers and class mates. This tour provided us an opportunity for total emersion in new social setting.

### **Teacher's workshops and training sessions**

Resources should be utilised properly so as to get desired outcomes. Everything depends on the workman who uses the tools and to make best use of these infrastructure and facilities, the management is always taking care to update the teaching staff before starting every new academic year for the same – enriching workshops for the teachers where organised:

1. The new academic session was given a head start by a motivational workshop conducted under the guidance of Dr. Neel Kanthan who is an established psychologist and counsellor. His main aspects were pertaining overall development of a child at school with providing suitable and favourable condition to allow them to have proper interaction with their parents, teachers and peers.
2. Apart from this English, science and maths training sections.

3. Gender sensitivity program to resolve the challenge of adolescence within our students.

This gave an enlightening start to the new academic year.

To go ahead in life one must keep learning, to grow and to achieve one must keep their minds open, ignited and active always. We believe in acceptance and an open – minded approach where we are taught to invest in everything we do and make it a habit with interest, joy, passion, sincerity, devotion and honesty as a result we keep learning and giving.

### Competitions

Winners try to do the right thing at the right time. They may just be little things, but usually they make the difference between winning and losing.
